

TWENTY-FIRST YEAR

EARLINGTON, HOPKINS COUNTY, KY., TUESDAY, JULY 26, 1910

No. 33

**BUREAU OF MINES
ESTABLISHED****New Department Working for
Safety in General Mining
Operations.****COAL MINE CONDITIONS
THEIR OFFICIAL STUDY.**

The act establishing a Bureau of Mines in the Department of the Interior, approved May 16, 1910, became effective July 1.

The bureau of mines includes the mine accidents and fuel in investigations for which an appropriation of \$410,000 was made by Congress.

In all, \$310,000 was appropriated for mine accident investigations. Of this sum under the general plans approved by the Secretary of the Interior, \$120,000 is to be spent on the rescue stations, \$38,000 for housing nine stations; \$34,000 for equipment eight new stations; and \$10,000 for additional equipment of five existing stations. The allotment for the investigation of explosives is \$40,000; for electricity in mining, \$14,000; appliances for preventing mine accidents, \$8,000; examination and codification of mining laws, \$5,000; and other technological investigations, ore treatment, etc., \$10,000. For the analyzing and testing of coals, lignites, ores and other mineral fuel substances belonging to or for the use of the United States, \$100,000 was appropriated. Of this amount \$35,000 will be spent in the chemical and physical investigation of fuels; \$25,000 in the inspection of government fuel purchase; \$5,000 in lignite and peat investigations; and \$4,000 in briquetting investigations.

The mine accident investigations which have been transferred from the Geological Survey to the bureau of mines were first authorized by the legislative appropriation act of May 22, 1908, carrying for the purpose an appropriation of \$150,000. This was followed by a similar appropriation carried in the act for the Sundry civil expenses of the government for 1910. A mine experiment station was established in Pittsburgh during 1908, at which, since that time, investigation of explosives, coal gas, dust, electricity and other possible causes of mine explosions have been continually under way. The mining engineering field force of the Geological Survey has already made decided progress in the study of underground mining conditions and methods. Practically all of the coal mines in which mine explosions have occurred during the last two years have been carefully examined, the cases, coke and dust have been analyzed at the laboratory at Pittsburgh and every effort has been made to determine the explosibility of various mixtures of gas and air in presence of shots of different types of explosives. Considerable progress has also been made in the investigation of explosives used in coal mining, and the conditions under which they may be used with least risk. Manufacturers have submitted many explosives for test at the station, and a considerable portion of them passed and have been classified, among the permissible explosives. The investigations and educational work in connection with the use of artificial breathing and other types of mine rescue equipment, the so-called oxygen helmets, have not only been useful in developing a more satisfactory use of such equipment in the examination of mine explosions, but also better methods for using this equipment in mine rescue work.

NEW MINES**Large Coal Company Will Soon Commence Work in Muhlenburg County.**

Greenville, Ky., July 16.—Another large coal company is in process of formation, to be operated in Muhlenburg county. W. A. Wickliffe Coal Company, at Broadway, in this county, has just closed a deal whereby he has purchased nearly 6,000 acres of valuable coal lands, lying along the Illinois Central railroad, near Nelson.

Mr. Wickliffe says that this is the most valuable coal property in Muhlenburg county. Two companies will immediately be incorporated, one an operating company and one a holding company. Work is now being pushed towards locating shafts on the property, and it is the intention of the owners to have two openings, one for No. 9 coal and one for No. 11 coal. It is expected that the mine will be running one of the openings by January, 1911.

HARD ON IDLERS**City Council of Madisonville Passes Stringent Vagrant Laws.**

The city Council of Madisonville has passed an ordinance providing a fine of \$10 and 30 days' imprisonment for vagrants upon conviction for the first offense. Upon the second and all subsequent convictions sixty days' imprisonment is provided. Any one fined under the ordinance shall be required to work at hard labor. All idlers must go to work and unless they do so or leave the city they will be liable to arrest.

Rescue Stations Will be Established.**Chicago, July 21.—A special from Washington says:**

Announcement is made by the acting director of the newly created federal bureau of mines that nine new rescue stations are to be established, additional equipment is to be supplied to the four existing stations and purchases are to be made of improved appliances for preventing mine accidents. The result unquestionably will be a lessening in the number of mine fatalities in the future.

The stations will be near to all big mines, so in case of accident the rescue party can reach the scene promptly and render assistance. Among the new stations will be one near the boundary between Southern Ohio, Southern West Virginia and Northeastern Kentucky, and another near the boundary near Southern Indiana and Western Kentucky, accessible to the coal fields of these regions and Southern Illinois.

BUYS COAL MINE.

Mr. Brent Hart, of Madisonville, has bought the coal mining property of W. H. Monroe, near the city. This mine is located near "Wanless" switch, so that shipments of coal can be made over both railroads and is regarded as valuable mining property. The purchase price is private. Mr. Hart is a young man of considerable ability and energy and will push the business for all it is worth.—Providence Enterprise.

Mr. Hart is well known in this city and his numerous friends here wish him success in his new venture.

Alleged Mob Leaders Found Not Guilty.
Cairo, Ill., July 22.—Vardetti, a not guilty were returned this afternoon in the case of twelve Cairo citizens charged with having been leaders or the mob which stormed the Alexander county jail and attempted to lynch the negro John Pratt on the night of February 17 last.

Locomotive Blasts.

Padschah May Secure New Union Station.
Paducah, Ky., July 22.—Dispatches received here today announce that the Cotton Belt will secure trackage into Paducah over the Nashville, Chattanooga & St. Louis, and crossing the bridge at Metropolis, Ill., will connect with the Iron Mountain over the Herrin Southern and run into St. Louis.

The Illinois Central has secured options on nearly two blocks of ground at Kentucky avenue, Eleventh street and Tenth street boulevard. It is announced that the company has secured this land for factory sites, but it is considered too valuable for that purpose, being in the center of the city, and it is generally supposed the Illinois Central purposes erecting the long-desired downtown station, possibly a union station with the Burlington and N. C. & St. L.

Minter Hale has accepted a position with the L. & N. as watchman of the engine at Elitch. He left for that place Friday.

Boyd Laffoon, who has been running the motor at the Arnold mines, has accepted a position on the L. & N. as fireman.

The interurban did a fine business during the fair, three extra coaches being used and every trip crowded.

Byron Meacham handled tickets on the interurban Sunday during Conductor Heaster's absence.

E. Bramwell, law agent of the L. & N., with headquarters at Nashville, was in the city Friday.

S. W. Mothershead, of Evansville, spent Sunday in the city with his parents.

Wm. Perkins, of Franklin, is working the day truck in the depot this week.

Conductor Ed Heaster visited his mother in Henderson Sunday.

Agent C. L. Ashby spent Saturday with friends at Antton.

**FLAGGED THE TRAIN
WITH A RED SHIRT****Twelve-Year-Old Boy Saves Lives of People on Interurban Train.**

Lexington, Ky., July 23.—For his presence of mind in flagging an interurban car on the Lexington and Frankfort line with a red shirt and preventing a wreck, Earl Bolett, aged 12, of Jett station, was today presented with \$25 in gold by president MacAfee of the Lexington and Interurban Railway company.

A tree blew across the track and Bolett flagged the Interurban just in time.

Franchise Tax.**Southern Express Co., \$10,350.****Cumberland Telephone & Telegraph Co., \$18,202.****American Express Co., \$5,505.****Western Union Telegraph Co., \$8,849.****Spring Lake & Ice Co., \$4,000.****Central Home Telephone Co., \$2,400.****White Plains Telephone Co., \$1,240.****Postal Telegraph Co., \$712.****The Pullman Car Co., \$2,808.**

The above companies doing business in this county are as assessed on valuation opposite their names by the State Board of Valuation. This is a franchise tax, and with other companies, brings quite a nest sum of money into the county treasury every year.

DEATH STRIKES A DOUBLE BLOW**Twin Baby Girls of Capt. and Mrs. Paul P. Price Succumb to Illness.**

The happy home of Capt. and Mrs. Paul P. Price has received a double blow since our last issue and the big heart of the Earlington public is throbbing in sympathy for them in their heavy and pathetic loss. Both twin baby girls have been laid to rest in Grapevine cemetery after the hard and united fight of parents, physicians and professional nurse to defeat the infantile disease to which they both succumbed. Their illness was not identical, perhaps, but similar. Little Ellen died about six o'clock Friday morning, July 22, 1910, and was buried Saturday morning. Little Dorothy, who seemed not to be dangerously ill at that time, lived until after midnight Saturday night, passing away at 1:50 Sunday morning. Interment was at Grapevine late Sunday afternoon. The twins were fifteen months old, and had entwined their sweet little lives about the hearts, not only of their parents and kindred, but of all the large circle of friends of the family. The services at both funerals were conducted in a very beautiful manner by Rev. D. M. Harrison, of Madisonville, pastor of the Presbyterian church with which Capt. Price's people have been identified for many years. Many Earlington and Madisonville friends accompanied the family to the last resting place of these little loved ones.

"Ah, oh, when away, may we be so blest,
And slink like the innocent child to rest,
And feel ourselves clasped to the infinite breast."

**TWO MORE SCHOOL
HOUSES TO BE BUILT****Contract Let For Building And Painting at White Plains And Ashbyburg.**

The building committee of the County Board of Education met at the court house in Madisonville Saturday and let contracts for new school building at White Plains and Ashbyburg. Both contracts were secured by carpenters residing at the two mentioned places. The contracts at Ashbyburg, for remodeling the present school room and adding a new room, was secured by C. H. Tomblinson, of Ashbyburg, for \$725. J. O. Atkinson, of White Plains, was awarded the contract at that place, for building a two room frame house \$600, for \$855. Frank Wilkey, who has already painted a number of school houses in the county, got contract for painting both these houses.

After Prison Communion.

Lexington, Ky., July 22.—The Fayette County Grand Jury, in its report today, goes after the State Prison Commission in vigorous fashion for lack of suitable accommodations for girl inmates at the State Reform School. The report charges that two girls are bedded in a 28-inch cot, and that eighty girls, most of them grown, are housed in one room.

Coal Company May Acquire Canning Factory.

Henderson, Ky., July 23.—The Cahaba Coal Company, which recently purchased the Corydon Coal Mining Company, is engineering a deal by which they will become the owners of the Corydon Canning Co. If a franchise to light the streets of Corydon can be secured from the city council next Tuesday night the same company will build an electric lighting plant and purchase the canning factory immediately.

MINING NOTES.**Coal Company to Build Addition to Plant.**

The W. G. Duncan Coal Company has awarded the contract to Joseph & Joseph, architects, for drawing plans for an extensive addition to their plant at Graham, Ky. The improvements will consist of the latest type power-house to cost in the neighborhood of \$15,000. The building will be of steel concrete and masonry construction, with a boiler-house containing a battery of seven boilers. The engine room will be equipped with traveling cranes to reach every portion of the room.

Over \$15,000 will also be spent on the most improved type of generators and engines.

The emergency fan is completed and is a thing of beauty and a marvel of compactness. It is sectional in construction and can be readily taken down and loaded in ordinary wagons, and carried to any place and quickly reassembled. It is electric driven and has three different speeds ranging from 200 to 500 revolutions per minute. At present it is stored in the lumber yard at No. 9, and is well worth going to see, commanding as it does the admiration of all who behold it.

Barboursville, Ky., July 23.—One of the largest coal deals consummated here for some time was the purchase of the holdings of the Straight Creek Colliery Co., of this city, by A. C. Blowers and associates, of Pineville. The price was in the neighborhood of \$30,000. The plant is in Bell county and was established three years ago.

A new eccentric shaft has been put in at Victoria since our last. The shaft is equipped with heavy fly wheels to absorb all undue vibrations, and everything is running so smoothly that Foreman Blanks' countenance is adorned with a broadcast smile.

Magician Toombs and his "browsers" left Monday for Fox Run mine, at which place they will hold a mechanical pow-wow over some afflicting problem which demands the attention of said specialists.

Wm. C. Wilson, of the Shamrock mines, who lays healing hands upon the mining machinery of that place, was visible here several days last week among friends and relatives.

Weightman John Hogan, of No. 9, made several trips to Madisonville during the Fair, but knowing ones assure us that the fair and not the Fair was the great attraction.

Timbers are being secured for renewing No. 11 scale, which will be begun at an early date, just as soon as some work already begun can be completed.

After several days' absence our friends Miller and Lynn have landed again at the coke ovens, and are now eluding and pretty promiscuously at that place.

W. D. Caviness laid soothing hands upon a rebellious pipeline at the coke ovens a day or two since, and reinstated peace and harmony.

Morton Victory left Sunday for Providence, where he has accepted a position as coal weigher at the mines lately purchased by Brent Hart.

Henry Byron and family, of Cynthiana, turned on Methodist Hill the past few days among their relatives.

Juo. T. Barnett, mine guard at the Fox Run mines, was in city Friday.

M. J. S. H. Kimmel spent Sunday in Henderson with his parents.

SENTENCE A JUST ONE**Gov. Wilson Refuses to Pardon For Monroe for Selling Examination Papers.**

Frankfort, July 22.—Gov. Wilson has refused to pardon C. O. Monroe, who was convicted and sentenced to the penitentiary at Eddyville for selling examination papers in Todd county. The governor, in commenting on the case, says "the sentence was a just one."

Monroe is a negro school teacher, and is well known throughout the State, having held several good positions with some of the largest and best schools in Kentucky. At one time he was the principal of the Western colored school at Owensboro, and later received an appointment at Lexington. It was during vacation, and while the examinations were in progress, that Monroe went to Todd county and disposed of a number of examination papers.

**CLAIMS RAILROAD
VIOLATED THE LAW****Du Relle Files Suit Against L. & N. on Twenty-Four Instances.**

RCivil suits were filed by United States District Attorney George Du Relle Friday afternoon against the Louisville and Nashville railroad in the United States Clerk's office, seeking to enforce penalties against the road for alleged violations of the hours of service laws in twenty-four instances.

Attorney Du Relle alleges in his suit that the company violated the law by keeping men on duty longer than nine hours.

The maximum penalty is \$500 for each violation. Violations alleged are:

G. D. Tucker, Hopkinsville, April 26, 27, 28 and 30: worked ten hours.

T. S. Woolee, Hopkinsville, April 27, 28 and 29: worked ten hours.

C. L. Ashby, Earlington, Ky., May 2, 3, 4 and 5: worked twelve hours.

Benjamin Stanft, Earlington, May 2, 3, 4 and 6: worked ten hours.

W. H. Morton, Morton, Ky., May 2, 3, 4 and 5: worked ten hours.

Desty Kidd, Morton, Ky., May 3, 4 and 5: worked ten hours.

Drowned Sunday on St. Charles Road.

Sunday afternoon, while Goldie Hale, nine years old, was going home from church in a buggy with two young ladies, Misses Baker and Sadler, they attempted to cross the bridge over the creek near the home of Dr. John Finley's, and the bridge on account of the high water washed away and carried the horse and buggy down the stream. The two young ladies with Goldie jumped out, but Goldie was caught in the rigging of the buggy in some manner and drowned. Her body was recovered in a canal and was buried in the cemetery of Perry Williams, and after thoroughly overhauling the notes, left with \$400 and \$800 in notes, hidden in an old trunk. Jesse Gregory was relieved of \$50, which is said to have been the neighbors and carried to her home. She will be buried today.

Bold Robberies at Central City.

Central City, Ky., July 22.—While the larger part of the populace was attending a funeral at Central City, a band of robbers entered the residence of Perry Williams, and after thoroughly overhauling the notes, left with \$400 and \$800 in notes, hidden in an old trunk. Jesse Gregory was relieved of \$50, which is said to have been the neighbors and carried to her home. She will be buried today.

Grand Master of Knights Templar of the United States is Dead.

Providence, R.I., July 21.—Rev. Dr. Henry W. Rags, Grand Master of the Grand Encampment of the Knights Templar of the United States and Grand Master of the Masons of Rhode Island, died at his home here this evening.

The Bee Man Says

"You do not count for much unless people know about you. The tree that falls in the forest lies unnoticed, and the rose that blooms far from the beaten path wastes its sweetness on the desert air."

ADVERTISE

Spite of the big apple crop it's still a mighty short distance between the lower and the upper crust in a hotel pie.

If your advertising is so unimportant that it makes people suppose your store to be unimportant—work hard to correct the impression.

Your store is interesting and important to people ALL THE TIME, of course. But you must keep telling them how and why all the time.

The crops of this country are very seriously hurt and there is little ground for hope that cost of living will decline in the matter of purchase price of farm products.

Not one of a store's "regular customers" fails to note—with personal interest and pleasure—every evidence of increasing advertising enterprise which it shows.

In addition to earning direct profits on your time spent in reading ads, you enlarge your "buying information"—make yourself a better business man or woman.

The momentous question, "What is Whiskey?" has again been reopened after it was thought the Treasury Department and the President had finally put it to rest. Our local authorities do not find it so hard to determine "What is Beer?"

Crops about here are in fine shape, except in very low land where the excess of rain has submerged portions of the fields. But the growing conditions are so good that no doubt the major portion of the crops are benefited to an extent far exceeding the damage inflicted on the low ground fields. There will be plenty of wheat and corn and hay in this part of the country, compared with the usual average of crops.

Earlington is affording a fine line of summer resort weather for the benefit of the stay-at-homes. These refreshing rains keep the dust down and the atmosphere fresh lathered and invigorating. There aren't many hot corners where the nights are even uncomfortably warm. In truth, light cover is in requisition often before morning where the sleepers keep windows open in the sensible, sanitary manner that most thoughtful people have adopted. Long as air stays pure and clean a little heat wouldn't hurt anyhow.

Not much is left of the old impression that the ads were tire some reading. Perhaps they may have been, in the days before they came to reflect the business spirit of the hour, and to be—to all people who take a real interest in life as it is lived in this

city—a never exhausted source of "opportunity news." In these days the ads are the keys of things. They give us clues, hints, facts that appeal to our selfish interests. They repay our attention in money—money saved in purchases; money made in ventures. They are a non-eligible factor in life as we live it—in business as we transact it. They are not dull—unless life itself is dull. And it is not.

HUNDRED SQUARE MILES IN EXTENT

Officers of Steamer Dolphin Tell of Tremendous Forest Fires.

Seattle, Wash., July 22.—Officers of the steamer Dolphin, which arrived from Skagway, Alaska, yesterday, told of tremendous forest fires, a hundred square miles in extent, which they judged to be twenty-five miles inshore from the Strait of Georgia, north of Howe Sound. "This was the biggest forest fire I have ever seen," said First Officer H. Deen. "We were nearest to it on Wednesday afternoon. The air was perfectly still and tremendous clouds of smoke rose in the form of a cauliflower, narrow at the base and gradually spreading all over the heavens. Along the horizon was a broad streak of flames. I judged the flames to be several hundred feet high."

A Well Shod Woman Looks Well Anywhere

She may Dress in the finest Silk and wear the most costly Hat that money can buy and yet if she has on shoddy Shoes the main article is wanting and she is not well dressed. We want every lady in Earlington and vicinity to be well shod and are offering a swell line of Black and Tan Oxfords and Pumps for 15 days, below cost. We mean just what we say **BELOW COST**. THE - BEST - TELEPHONE - SERVICE

LOOK HERE, MR. FARMER!

Note that the Cumberland Telephone & Telegraph Company, Incorporated, is offering to you an ideal proposition for telephone service. Using our service you have advantages of long distance connections to every important point in the United States. The advantage of telephone service in your residence are too numerous to mention, but among them would be daily communication with the market, obtaining prices, getting accurate reports in the market, calling on your neighbors, friends and relatives. All these advantages and pleasures are more than worth the price you would pay for the service.

Listen early and information furnished by calling on our manager, Fred Eitzen.

A small colored boy had his foot nearly cut off at Barsley by jumping on and off trains. The wonder of it is that there are not more hurt or killed by following the practice.

NO TIME WASTER

Prompt Action Is Pleading Many Earlington Citizens.

Get down to the cause of everything.

Bad backs are caused by sick kidneys.

Cure the kidneys you cure backache.

Doan's Kidney Pills are for kidneys only.

No time wasted trying to cure other troubles.

Earlington people endorse their merit.

James Walter Albion, of Earlington, Ky., says: "My kidney trouble was brought on by hard work and I was afflicted with the complaint for ten years. I suffered from dizzy spells, my kidneys did not do their work properly and my rest was much disturbed by too frequent passages of the kidney secretions. Some time ago I learned of Doan's Kidney Pills and procured a box. Soon after I began their use, I received great relief and thus encouraged, I continued taking them until I was cured. I feel very grateful to Doan's Kidney Pills for bringing about this change."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

W. H. Guiri left Sunday for his home in Chicago.

Mrs. Elizabeth Oldham, of Hopkinsville, mother of Lee and J. M. Oldham, who has been visiting in the city for some time, returned home Sunday.

SPRAINED ANKLE.

Is Giving President Taft Considerable Worry.

Ellsworth, Me., July 28.—President Taft is suffering to night from a seriously sprained ankle, sustained yesterday on the Knoll links, Bar Harbor. He is under the care of the surgeons of the Mayflower. He re-injured the member today in alighting from an auto in Bangor, when he thoughtlessly put his full weight on his ankle.

Bids Wanted for Subsistence Stores.

Adjutant General's Office, Frankfort, Ky., July 19, 1910.

Sealed proposals in triplicate, for furnishing and delivering at the Earlington rifle range, from August 1st to 3rd, 1910, subsistence stores in accordance with specifications and conditions set forth in Circular dated July 19, 1910, copy of which will be furnished upon request, will be received at Frankfort, Ky., on or before July 26th, 1910, and then opened.

Bidders are invited to be present. THOMAS W. WOODYARD, Lieut. Col. & Deputy Q. M. Gen'l. Ky., Chief Q. M. & Commissary Rifle Camps 1910.

Beautiful Lawn Party.

Saturday night the home of Mr. and Mrs. John Long was the happy scene of a party of young people given in compliment to Mrs. Long's guest, Miss Gladys Freeman, of California. The lawn was beautifully decorated with Japanese lanterns and the home was fragrant with bouquets of sweet peas. Delicious refreshments were served during the evening. About forty guests enjoyed a most delightful evening spent in social chat and games provided by the genial host and charming hostess.

Fulton Goes Dry.

Fulton, Ky., July 22.—By a majority of 18 votes, Fulton voted "dry" in a local option election yesterday. Fulton has been without saloons for a number of years.

Make Every Dollar Worth More Than a Dollar

An educated ad-reader will never be poor. To "know advertising" is to have a practical knowledge of values—of things—of when and where to buy. No one, having and utilizing such knowledge, could ever be unthrifty, or in any sense careless or reckless of expenses. For such knowledge makes for thrift—for saving. It makes one proof against shams—false values—manipulated reductions.

The intelligent ad reader uses as much thought, consideration, education and ability in buying things as is required in earning the money that is spent for them. And that amounts to a substantial increase of the value of every dollar of the family revenue!
